Rigac Cup

Call for the 2nd National Knife and Axe Throwing Championship and participation in the Hungarian Knife Throwers Meeting!

Herewith we announce the 2nd National Knife and Axe Throwing Championship combined with the Hungarian Knife Throwers Meeting, that is, Rigac Cup, in order to reunite, make acquaintance with, unburden the friendly and professional exchange of views for, as well as measuring the sportsmanlike preparedness of the Hungarian knife and axe throwers.

The event, hopefully repeated annually, is dedicated to become the most prestigious event of the country, a friendly reunion so relaxed, where the true devotees of the sport, nowadays still arrantly neglected, can freely participate and challenge themselves.

Date and time: Saturday, 3rd of September, 2016.

Location: **Alsómocsolád**, home of the bygone outlaw, Jancsi Rigac.

Organizer: Sports Club of Alsómocsolád, with the moral and financial support of the council of Alsómocsolád.

The main goal is to gather the Hungarian knife and axe throwers for a relaxed little throwing session, and provide the opportunity to make acquaintance with each other, including the foreign participants as well. Let's meet the old friends, make new ones, and learn new tricks from each other. And, of course, let's decide in a sportsmanlike competition who is in the best shape at the moment. The long and short of it: let the steel stick.

Since the number of the participants is limited, the prior registration is compulsory. Application deadline: 20th of August, 2016.

Every participant is obligated to think about getting to the location and getting accommodation for themselves. If there's need for a local accommodation, please arrange in advance.

Organizer: János Kohl: +36/72/451-727, info@janus-facedfilabrasileiro.com

Rules

Both the competition as a whole and the individual events will be held according to the uniform and official [European Knife and Axe Throwing Rules](#).

We will do the following events:

- Knife 3 m, 5 m, 7 m and 9 m;
- Axe 4 m, 5 m, 7 m and 8 m (in case of the axe 5m event, it is mandated that the axe must be sticking with its handle pointing upward!);

For each event, the thrower has to show up with a set of three throwing tools (knives/axes), of uniform shape and material (same "model"). Exceptions only for throwing tools damaged during the meeting.

The events of the championship will also be supplemented by the knife (3, 4, 5, 6 and 7 m) and axe (4, 5, 7, 8 and 10 m) walk back, speed, silhouette, long distance knife and long distance axe events.

Combined rankings and total combined rankings

For the precision events, there will be four combined rankings: For women, men, knives and axes separately (on condition that there are at least 6 female participants!). Knives combine the 3m, 5m, 7m and 9m knife events, axes combine the 4m, 5m, 7m and 8m axe events.

The total combined precision ranking is the sum of the above-mentioned combined knife ranking and combined axe ranking.

Titles to win:

- Rigac Champion 2016 (knife 3, 5, 7, 9 m; axe 4, 5, 7, 8 m; speed; silhouette; long distance knife; long distance axe /male, female/) (24 titles)
- Rigac Combined Champion 2016 (knife, axe /male, female/) (4 titles)
- Rigac Total Combined Champion 2016 (total combined /male, female/) (2 titles)
- 1st, 2nd, and 3rd Lad of Jancsi Rigac 2016 (knife WB, axe WB /male, female/) (4 titles)
- Combined WB Champion 2016 (combined WB /male, female/) (2 titles)
- Absolute Rigac Champion 2016 (absolute /male, female/) (2 titles)

For the title of 1st, 2nd, and 3rd Lad of Jancsi Rigac 2016 in Knife/Axe Precision Throwing, we will use the walk-back-mode.

Those contestants are allowed to take part in these walk-back events who fall within the first 20% of the combined knife ranking or the combined axes ranking, respectively, but at least 20 throwers per event. (In order to determine the first 20%, the points achieved in each event will first be normalized, and then summed up. Normalization here means that in each event, the best thrower will receive 100 normalized points. This ensures that a point in a more demanding event (like 7m knives) also carries more weight in the combined ranking. The event will be held at the following marked distances: Knife 3, 4, 5, 6, 7m, axe 4, 5, 7, 8, 10m. The thrower will throw one round of three throws per distance mark, starting behind the closest distance mark and moving back behind the next distance mark after completing the previous round. The total number of throws in one run is thus 15 throws (5 distances x 3 throws per round = 15 throws). This whole process will be then repeated three more times, resulting in 60 throws in

all (4 runs x 15 throws per run = 60 throws). The thrower does not have to stand at the distance mark, but can move back at maximum 99cm.

The combined WB ranking is done by the summing up of the points reached in the knife walk back and axe walk back events.

The absolute ranking is made by the summing up of the points reached in the total combined ranking and in the combined WB ranking.

Be sure to read all relevant background information, rules and regulations about the competition!

Everyone is waited for by the organizers!
